CARINGO SWARM

UNLOCK THE REAL VALUE OF ALFRESCO WITH ALFRED

BENEFITS OF THE SOLUTIONS

ALFRED Desktop

MANAGING AND COLLABORATING ON CONTENT
Alfred Desktop, zero learning Alfresco experience for MS windows users. Simple and user-friendly interface to manage documents and metadata.

ALFRED Finder

STOP SEARCHING START FINDING
Alfred Finder is a web interface that makes searching a simple and rewarding experience.

ALFRED Edge

INTELLIGENT INTEGRATION
Alfred Edge imposes quality of service into large incoming and outgoing Alfresco document streams. As an API gateway, Edge optimizes and audits large volumes of synchronous (API) and asynchronous (Inflow).

ALFRED Inflow

FAST BULK DOCUMENT UPLOADER
Alfred Inflow is a solution to migrate documents at high speed into Alfresco.

ALFRED API

A BUSINESS API FOR AN AGILE EVOLUTION
Alfred API allows to build stable, simple and versioned business API's via REST. It takes the risk and the workload out of Alfresco upgrades and it supports continuous evolution of your content architecture.

ALFRED Ops

ALFRESCO MONITORING SYSTEM
Alfred Ops is a set of tools that monitors Alfresco. It allows you to know if users are getting errors, which users, and more importantly why.

ALFRED Object Storage

BUILDING MULTI-MILLION ARCHIVES
Alfred Object Storage stores on-premise Alfresco documents in SWARM, an S3 compliant object storage.

Benefits sidebar

- User Friendly Interface and Advanced Search Capabilities
- Multimillion Records & Information Management Archiving Solution
- Quality of Service
- Security and compliance
- Operation Clarity
- Lower Cost of Operations
